

DIRECTED PRACTICE

MATERIALS

paper

hair comb

Static Comb

Ask a question: How can you move small pieces of paper without touching them?

- 1 Tear a piece of paper into small pieces.
- 2 Bring the comb near the pieces of paper. **Observe** what happens. **Record your observations.**

- 3 Run the comb through your hair several times, and again bring the comb near the pieces of paper. **Observe** what happens. **Record your observations.**

- 4 **Draw a conclusion.**
How did your comb change after you passed it through your hair?
